

Liveable Neighbourhoods

Liveable Neighbourhoods are accessible and healthy places that allow people of all ages and abilities, to play and socialise outdoors in their local area, as well as making walking, cycling and public transport the first choice. We would be delighted if you were able to join us to discuss ideas which help improve your neighbourhood.

Building on the workshops held last December in Haghill and Carntyne, three further workshops have been organised as follows:

- **Cranhill - Tuesday 22nd February 1.00pm to 5.00pm - Cranhill Development Trust, 109 Bellrock St, Glasgow G33 3HE**
- **Riddrie - Thursday 24th February 1.00pm to 5.00pm - St Enochs Hogganfield Parish Church, 860 Cumbernauld Road, Glasgow, G33 2QW**
- **Dennistoun - Friday 25th February 1.00pm to 5.00pm - Reidvale Centre, 13 Whitevale St, Glasgow G31 1QW**

The workshops will be informal, and lunch will be provided. We will start with a general introduction and discussion about what Liveable Neighbourhoods are, followed by an exploration of how these ideas fit within the current community through story maps. An important part of the workshop will be to identify any current projects in the Neighbourhood and help create a list of potential interventions and help reduce the city's dependency on motor vehicles.

If you are not able to join us there is an opportunity to make comments on our Common Place web site on the following link: www.dennistountocranhilln.commonplace.is

For further information please contact Chris at c.stewart@collectivearchitecture.co.uk

If you can join us, it would be helpful to please let Chris know however everyone is also very welcome to drop in on the day.
